

Skewer

Description

This non-metallic, nylon Skewer is a handy device that is designed to enhance the presentation of filets, tournedos, and pinwheels. The Skewer provides an upscale look for any high-end food product. It easily inserts into the meat, keeping intact stuffed or rolled entrées, for a neat appearance.

Features

- **Easy to Use**
- **Made of Food Grade Material**
- **Eliminates the Need for Dangerous Metal Products That Cause Interference with Metal Detection**
- **Eliminates the Need for Hazardous Wooden Products or Toothpicks That Can Splinter, Causing Harmful Results to Consumers**
- **Eliminates the Need for Clumsy String Tying**
- **Provides an Attractive Finished Appearance to Meat and Poultry Entrees**
- **Applications**

The Skewer is compatible with oven, stovetop, microwave, and barbecue cooking methods.

Multiple Colors

To make product identification easy, the Skewer is available in multiple colors.

● Light Blue ● Red ○ White
